

Ricoth Theta SC2

Records natural 360° still images and videos with high resolution and highly precise stitch image processing.

Produces incredibly realistic spherical video by shooting video in 4K (3840 x 1920, 29.97fps). Never miss a shot with the quick lens response that enables shooting in around 1.5 seconds after turning the power on.

Adapt to shooting scenarios and take beautiful images with ease. Features Preset (Face, Night View, and Lens-by-Lens Exposure modes).

High-speed wireless transfer. Rapid wireless transfer of images and videos. A design that fits itself to the hand. Choose from four fresh colours.

Thin and lightweight body that optimizes internal components using a proprietary folded optics system.

Weight	104g
